

RONIT KHADKA

MERN Stack Developer

Madhyapur, Thimi, Bhaktapur, Nepal | +977 9803945441 | ronitkhadka4@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Excellent Full Stack Developer who has practical experience in developing Web Applications with the MERN stack (MongoDB, Express.js, React.js, and Node.js). Proficient with responsive user interface, RESTful API, authentication systems, full stack application development and has hands-on experience in developing a Hospital Management System and Social Networking Application. With passion for solving problems, writing clean and maintainable code, and always learning the latest web technologies.

SKILLS

TECHNICAL SKILLS

Programming & Frontend:

JavaScript (ES6+), React.js, HTML5, CSS3, Tailwind CSS, Responsive Design

Backend & APIs:

Node.js, Express.js, REST APIs, JWT Authentication, CRUD Operations

Database & Data:

MongoDB, Mongoose, MySQL

State Management:

Redux Toolkit, RTK Query

Development Tools:

Git, GitHub, Postman, Visual Studio Code

Additional Technologies:

.NET Framework (Basic), Basic Networking Concepts, Power BI

Other Skills:

Problem Solving, Debugging, API Integration

LANGUAGES

Nepali English

EDUCATION

BSc IT

2024 A.D. Currently Studying (2nd Year)

ISMT College, Tinkune, Kathmandu

NEB (+2) - Management

2079 - 2081 B.S.

Liverpool International Secondary School/College, Baneshwor, Kathmandu

SEE

Completed 2078 B.S.

Adarsha Janapremi English Secondary School/College, Kaushaltar, Madhyapur Thimi, Bhaktapur

PROJECTS

Hospital Management System

Tech Stack: MongoDB, Express.js, React.js, Node.js, Redux Toolkit, RTK Query

A full-stack hospital management web application built using the MERN stack that helps patients register, book appointments, contact doctors, and view medical reports. Includes an admin dashboard for managing doctors, patients, and appointments.

- Patient registration and authentication
- Doctor and service listing
- Appointment booking system
- Contact/message system for health inquiries

- View medical reports, prescriptions, and next appointment deadlines
- Admin dashboard with CRUD operations for doctors and patients

Live Project: hospital-one-lemon.vercel.app | **GitHub:** github.com/Ronit-9/Hospital

Socially – Social Networking Application

Tech Stack: MongoDB, Express.js, React.js, Node.js, Redux Toolkit, RTK Query

A full-stack social networking application inspired by modern social media platforms, allowing users to create accounts, share photos, interact with posts, and connect with other users.

- User registration and login
- Create and share photo posts
- Like and comment on posts
- Follow other users and build connections
- Edit and manage user profiles
- User authentication and account management
